When Spider-Man first appeared in the Marvel Universe, he was truly unlike any hero who had come before. He was not noble-born like the Sub Mariner. Unlike the Fantastic Four, he had no headquarters and few resources with which to fight crime. In return for his efforts, he received no money and precious little thanks. Instead, he was just a lonely teenager, a nobody, until fate chose to grant him great power — a power he first squandered at

terrible cost to himself and those he loved. Humbled, this ordinary boy grew into a man who could never abandon the responsibility that had fallen upon him. He became Spider-Man, Marvel's most famous super hero.

The only child of [illegible], Peter Parker was orphaned at the age of six when his parents were killed while overseas on government business. Peter was left in the care of his elderly uncle and aunt, [illegible] and [illegible], who unhesitatingly raised him as the child they never had. Peter was academically gifted, and he displayed an uncanny affinity for science that was nothing short of genius. Socially, however, he was painfully shy and the target of much cruelty. His uncle and aunt compensated with a steadfast love, but they worried privately what lay in store for the fragile boy.

A student at [illegible], Peter attended a public evening exhibition demonstrating the safe handling of nuclear laboratory waste materials. A spider, accidentally irradiated by a particle beam, fell onto Peter's hand and bit him. His hand burning from the wound, Peter left the exhibition in a daze and walked into the path of an oncoming car. Without thinking, Peter jumped onto the side of a wall, to which he stuck with his bare hands. Stunned, he realized he had acquired superhuman powers similar to those of a spider: enhanced strength and agility, and the ability to cling to almost any surface. Most incredibly, he had gained a sixth sense that provided him with early warning of impending danger.

To test his new powers, Peter donned a hastily made mask and took part in an all-comers wrestling match against [illegible], winning with ease. Spotted by a talent scout who promised to arrange a TV appearance, Peter hurried home and created a more elaborate costume, including his unique [illegible]. Thus was Spider-Man born. With his new powers and sudden fame, Peter promised himself he would take care of Uncle Ben and Aunt May. But the rest of the world — those who derided lonely science nerd Peter Parker — they were not his concern. So it was that following another TV appearance, when a [illegible] ran past Spider-Man, pursued by a police officer, Peter did nothing to intervene.

Returning home one evening a few days later, Peter was horrified to discover Uncle Ben had been murdered — shot by an intruder. Spider-Man located the killer, discovering the criminal to be the same man he had failed to stop just days before. Filled with remorse, Peter finally understood that with great power, there must also come great responsibility. That was the first step on his path as a hero, though he did not immediately realize the true nature of his destiny. Unsure how to proceed, Spider-Man attempted to resume his show-business career, but was thwarted by J. Jonah Jameson's crusading editorials in the [illegible]. Failing to find paid employment with the Fantastic Four, Spider-Man battled the [illegible] to protect his reputation. It was not until Jameson offered a reward for photos of the Vulture that Peter recognized he could fulfill his debt to Uncle Ben by fighting crime, while selling photos of the action to pay his bills.

Spider-Man's heroic reputation grew quickly, and he found himself facing a bewildering array of super-villains: the [illegible], Doctor Octopus, the [illegible], Doctor Doom, the Lizard, Electro, the [illegible], Mysterio, the Green Goblin and Kraven the Hunter. Before long, many of these villains turned their attention less to crime, instead seeking revenge on the web-slinger. Through it all, Peter sold photos of Spider-Man's battles to the Bugle, using the money to help Aunt May. Invariably, Jameson would seize on the photos to attack Spider-Man's public image. Although unable to permanently destroy Spider-Man's

I never really liked the Stones... more of a Beatles gal, myself

And you know what the Beatles say about happiness.

You don't have the guts, girlie

Why go there .. when we can all burn *here*?

XAVIER INSTITUTE FOR HIGHER LEARNING

WESTCHESTER, NEW YORK
11:39 PM (EST)

--ning us live via satellite is Charles Xavier, founder of the X-Men and CEO of the global X-Corporation.

The leader of the "peaceful" mutant rights movement, Professor Xavier recently revealed to the world that he too is Homo superior, a telepath of the highest order. Professor, welcome to Nightline.

Thank you for having me, Ted.

Are things better for mutants today than they were a year ago?

For some, but many people throughout the world remain oppressed simply because of the unique genetic make-up with which they were born.

As a volunteer rescue force, the X-Men hope to help offset these conditions by responding to--

Professor X this is Fie d Hand er Shortpack I I don t know ir this telepathic channel s se are but we have a situation in Moscow

Forgive me, Ted. I'm going to have to cut our discussion short. My apolog es to your viewers.

I killed the feed, Professor. Are you *all right?*

I'm fine, Jean. I just need a moment to myself, please

Of... of course.

I'll be outside if you need me.

[illegible]

[illegible]

No.

What have I done..?

BALTIMORE, MARYLAND

KNOCK KNOCK

If you expect me to buy a copy of *Watchtower* at this hour, you're out of your--

Hello, Forge.

Charles...?

When did the world's greatest telepath start making *house calls?*

I'm sorry to wake you, old friend, but this is important.

Oh, I wasn't sleeping. I had a dream about a perpetual motion machine, and I had to see if it would work in real life.

This "gift" of mine allows me to build just about anything, but free energy is still my Moby Dick. How'd you find the new workshop, anyway?

I have my sources... though some suggested you might be at a ***Cheyenne reservation***, resuming your studies in shamanism.

Yeah, well, I ***was***, but it didn't take. As a wise man once said, "Hokey religions and ancient weapons are no match for a good ***blaster*** at your side."

But I doubt you gassed up the personal jet to talk ***theology*** with me.

I'm afraid not. As you know, my students and I were recently "outted" as mutants to the world

And while this development has been largely positive, it has also ***complicated*** our ongoing battle to promote unity between mutants and humankind.

Occasionally, politically sensitive missions will require a certain degree of... ***deniability.***

And it's tough to deny a fighter plane filled with public figures wearing big letter ***X's*** on their jackets, huh?

Precisely. Which is why I've started utilizing clandestine operatives who can't be traced back to me in the event of their capture or death.

You mean ***spies?***

This requires your utmost discretion, Forge.

To prevent igniting any international incidents, these agents remain so secret, even my *X-Men* are unaware of their existence.

I don't understand. If you haven't told your students, why are you telling *me*? I've always supported your cause, but-

A few hours ago, my top operative was killed in the line of duty. Her name was *Prudence*.

She was a very... a very special young woman.

I'm sorry.

A pyrokinetic, arms-dealing mutant named *Steinbeck* murdered Prudence before she had a chance to complete her assignment... a diplomatically thorny mission that could save countless lives

I came to you because I need someone who can finish what Prudence started.

Charles, I'm... I'm flattered, but I'm just an aging war vet. I mean, half of my appendages need to be *oiled* every day.

If you want someone to *invent* stuff for you, I'm your man, but I'd be *useless* in the field.

Actually, I wasn't talking about *you*, Forge...

...I was talking about *her.*

Mystique?!

Are you *insane?* She's a *terrorist,* a . a heart ess mercenary who on y cares about her--

You loved her once, didn't you?

I have the power to fix anything... but I couldn't fix her.

And neither can you, Charles. No one can. Mystique's a *shapeshifter*. There's a reason my people call her kind *tricksters*.

Raven Darkholme may be able to alter her *appearance* a million times a day... but she never really changes.

I have no illusions about the chances of reforming her, Forge. Mystique is a vicious woman who's hurt people I love.

Unfortunately, because of her expertise in espionage, she is also the only mutant with the skills and abilities to successfully complete Prudence's mission.

In the process, perhaps she might unwittingly repay society for some of her past crimes.

She'll never agree to help you

I believe I can make her the proverbial "offer she can't refuse"... but first, I have to *find* her.

Mystique eludes most conventional forms of detection, and I'm unable to get a telepathic lock on her ever-shifting gray matter.

As the person who knows her better than anyone, I was hoping *you* might help me locate her.

I don't know what to tell you, Charles. I suppose I'll do what I can, but I haven't heard from Mystique in ages.

She could be *anywhere*...

WESTLAKE APARTMENT COMPLEX
WASHINGTON, D.C.
3:12 AM (EST)

So, uh... what's your name?

Whatever you want it to be

I told the agency I wanted a *brunette* tonight.

Relax, handsome..

...hair's gonna be the *last* thing on your mind once *we* get started.

Actually, you... you should be *fine*.

Nice digs. You some kinda scientist?

Jim, please don't touch that.

God, guys with big brains are such a turn-on. What are you making, anything *sexy*?

All of my projects are *highly classified*, okay?

Can we just get started? This is an expensive hour.

Oh, but I *love* secrets. Come on, show me something cool, and I'll let you do anything you want with me.

Anything .?

Anything.

No, I.. I really shouldn't. My employers would *kill* me if I did.

Yeah, well...

...I'll kill you if you *don't.*

What are you

You blew your one shot to do this the easy way, Dr Connolly

Now tell me what the combination to your *safe* is, or I paint the walls with that big brain of yours.

KLIK KLATCH

Safe?

What safe?

Don't play *dumb*, Einstein

AHN!

A little bird told me *exactly* where to find it.

KLICK

FSSH

Finally .

.I've been looking *all over* for that..

What the--

UHN!

Mind if I slip into something more comfortable?

KASHINK

You're.. you're *Mystique.*

The *assassin.*

Well, my reputation precedes me. I'm--

You mean, I kissed a *mutant?*

Disgusting!

But you didn't mind kissing a *woman*, huh?

God, I just *love* open-minded girls.

Then the real Dr. Connolly...?

...is unconscious in the closet. I showed up a few minutes before you did. Pegged you for a spook the second I heard that fake American accent.

Look at you, with your bad wig and slutty get-up. What's your waistline, a *fraction*?

I know every chick who watches an episode of *Alias* thinks she can be a secret agent now, but what kind of third-rate outfit would hire *you*?

I'm not telling you *anything*.

Whatever, I'm gonna kill you either way.

Wait!

I... I work for the A.I.D.

Austria?

Congrats, *fraulein.*

You get a temporary stay of execution... but only because I'm nostalgic for the Fatherland.

Tell me, what does the ***Austrian Intelligence Division*** want with Dr. Connolly's device?

They... they hope to use it to help hunt down shapeshifters like ***you***. Apparently, you people are hard to track.

Well, good thing I got here first then, huh? My life would be a lot less fun if this gizmo ever fell into the hands of the two people who hate me-- ***anyone*** and ***everyone.***

Now shut up for a second. If I enlarge my tympanic membrane, I should be able to hear the tumblers fall into place.

Annnnnd...

...voila?

Hold on, if ***he*** doesn't have the device anymore, that means someone else--

We know you're in there, Mystique! Come out in your neutral form with your HANDS UP!

Friends of yours, you little *rat*?

No!

I am alone in this country, I... I *swear!*

Then beat it. I'll try to buy you some time.

Why are you--

But if I ever see you again, I'll put a bullet between your pretty little eyes. You're not cut out for this game, girl. Get out before somebody *takes* you out.

Danke. I... I don't know how to--

Just *go!*

Whoever these boys are, I'm sure I can handle them on my--
